Mr. Frank Holcomb,  
County Clerk,  
Wyandotte County,  
City.

Dear Sir:-

Replying to your Circular Letter of Aug. 7th regarding the County Bond proposition will say that if you have a purchaser who will give you a premium of \$2500.00 for your bonds drawing 4 percent interest I would not hesitate about taking it.

It would certainly be better to sell these bonds at once and clean up your 6% warrants than to wait two years before you can get the proper legislation.

I think you are to be congratulated if you can get as much as a \$2500.00 premium after the adverse opinion rendered by the bond attorneys.

Yours very truly,

Harry W. Bedell.

Secretary.

Mr. Frank M. Holcomb,  
County Clerk,  
City.

Dear Sir:-

We have read your communication of the 7th, written at the request of the Board of County Commissioners and do not hesitate to reply that, in our judgment, the Board would be wise to accept the \$2500.00 premium and sell the bonds, unless, of course, they can get a bigger premium. We think, however, under the circumstances, that would be difficult.

Sincerely,

C. L. Brokaw,

Cashier.

Dear Sir:-

We have your letter with reference to the sale of certain bonds, for the purpose of taking up outstanding County warrants.

We would like very much to see the County receive more premium on these bonds, but believe the County Commissioners should sell them now, for the best price they can get.

Yours Truly,

FIDELITY STATE BANK

Mr. Frank M. Holcomb,  
County Clerk,

Dear Sir:-

Replying to your request for my opinion as to whether or not it were better for the County to accept the proposition of \$2500.00 premium for 4 1/2 percent bonds to take up outstanding 6% warrants or wait two years longer expecting the Legislature to pass a new act covering objections and under which the bonds might bring a better premium. It is my humble judgement that it would be best to accept the proposition and sell the bonds now, as it is easy to figure a saving to the county of some \$3000. and then again in two years from now the bonds might not sell for the premium of \$10000. in that case the saving to the County in making a sale now would be of course greater than the \$3000. Our institution holds about \$8000. of these warrants and we are perfectly to carry them at 6 percent, but think it would be best for the County to get itself in position to take up at the lower rate. I am

Mr. Frank M. Holcomb,  
County Clerk,

Dear Sir:-

I have your letter of the 7th, before me and can only express my-self as a taxpayer in this matter, and believe that is what you want.

I don't like the idea of our County paying 6 percent on the out standing warrants, when these bonds for 4 $\frac{1}{2}$  percent can be sold to investors, who stand ready to take same, there is always a difference of opinion with different attorneys, and it looks like these bonds were good in the hands of investors, while the Banks and Trust Companies may not care to take them at the low rate of interest, many of our citizens will take them for their saving

Banks and Trust Companies, who are expected to sell their customers Bonds that are without question legal, could not be expected to handle Bonds of any kind that there is a question about, but if you have parties willing to take these bonds, I can't see why our Commissioners should hesitate, when the County must pay-off the warrants at some future date, why not now?

Yours very truly.

Dear Sir:-

In reply to yours of the 7th instant will say that from the description of condition governing the proposed bond issue the proposition of the people offering accrued interest and \$2500.00 should be accepted with haste, lest they also should change their minds.

The opportunity to save the county \$7500.00 should be accepted we believe.

Dear Sir:-

Replying to your favor of the 7th inst. relative to sale of bonds for \$2500.00 premium, would say that unless the prospects for a better deal within a short are pretty good, I would accept the \$2500.00 premium.

I suppose that before you could get Brokers to make a bid the question of the legality of the bonds would have to be put through the Supreme Court, which would take time, and my idea is that on account of the small amount of money as is evidenced by this transaction, it is not wise to wait longer to clean up the affairs of the County

Mr. F.M. Holcomb,  
County Clerk,

Dear Sir:-

Referring to your circular letter of August 7th, regarding the warrants outstanding amounting to \$342,000.00

If bonds can be issued for this amount and a premium secured for the issue and the interest on the bonds being 4½ percent, I would say it would be good business policy to issue the bonds and accept the \$2500.00 premium if nothing better could be secured, as it would be a saving to Wyandotte County of several thousand dollars before the legislature could take any steps to remedy any defect of the law, and the \$10,250. that would be saved in interest with the bonds of \$2500.00 would perhaps amount to more than the bonus that could be secured for 4½ percent bonds in two years or after the law was remedied to suit the proposed bond purchaser.

Dear Sir:-

I have your circular of the 7th. inst. in regard to the issuing of bonds to take up the outstanding warrants and judging from your statement of the saving in interest by issuing the bonds now and the premium of \$2500.00 offered would consider it advisable to issue the bonds at once.

Mr. F.M. Holcomb,

Dear Sir:-

Answering your letter in reference to sale of bonds at the premium you mention it seems to us taking all the circumstances into consideration, and the saving made on interest that it would be wise to sell the bonds at this time and thereby save the difference in interest and get the County on a cash basis.

I know this would be approved by the people of the County.

:-Kansas City Railway and Light Company vs. Metropolitan Street Railway Company, et al, No. 9004 in the United States Circuit Court:

Gentlemen:-

The Board of County Commissioners of Wyandotte County, Kansas, calls your attention to the fact that in 1909 the Legislature of the State of Kansas enacted a law relating to public bridges, known as Chapter 64 of the laws of Kansas of 1909; that said act requires the Board of County Commissioners of Wyandotte County, Kansas, to raise and lengthen its bridges in accord with the requirements of the Kaw Valley Drainage District and the Sec. of War of the United States; that the County of Wyandotte owns three bridges that span the Kansas River: one known as the James Street Bridge, another known as the Central Avenue Bridge and another as the East Kansas Avenue Bridge; that the Metropolitan Street Railway Company (which is now in your hands as Receivers) has tracks across each of said Bridges; that the Secretary of war and the Drainage District have notified, ordered and directed the County to re-construct said bridges as provided for in said Chapter 64 of said Laws of 1909. The Chapter 64 contains the following provisions:-

"No street Railway or other railway company shall construct, lay or maintain any tracks upon or use for the transportation of passengers or freight any bridge reconstructed or improved under the provisions of this act without first paying to the County reconstruction or improving such bridge one-half of the total cost of such reconstruction or improvements of such bridge and the approaches thereto."

Said Chapter further provides:

"If any street railway or railway corporation shall construct, lay or maintain any tracks upon or use for the transportation of its passengers or freight any bridge reconstructed or improved under the provisions of this act without first paying therefor as above provided, it shall thereby become liable to the County for one-half of the cost of the reconstruction or improvements of such bridge, and such county may sue for and recover such sum in any court of competent jurisdiction."

Said act further provides that the County Commissioners may enter into contract with any street railway company for the reconstruction of such bridges.

The Board of County Commissioners of Wyandotte County, Kansas, is now proceeding to reconstruct such bridges and the plans thereof have been submitted to and approved by the Engineer of the Metropolitan Street Railway Company. The said Board of County Commissioners respectfully requests you to make application to the United States Circuit Court for the District of Kansas to enter into a contract and expend for the reconstruction of such bridges one-half of the actual cost thereof.

Respectfully,

(Signed) Keplinger & Trickett

Communications to Major Edward H Schutz United States Engineer.

Major Edward H. Schutz, U.S. Engineer,

War Department,

Kansas City, Missouri,

Dear Sir:-

We submit you herewith plans for the reconstruction of the West Kansas Avenue Bridge over the Kansas River, and we ask that you forward to the War Department and secure its approval as quickly as possible. This bridge is in a dangerous condition by reason of the giving way of the piers and traffic is practically suspended thereon.

It is absolutely necessary that this bridge be reconstructed within the next four months if such a thing is possible, in order to save the spans from going into the river with the anticipated high water of June or July.

There are several reasons why it is impracticable to build this bridge at right <sup>angle</sup> with the river. In the first place angling as it now does, it is on a direct line and forms a continuation for Kansas Avenue, one of the principal through-fares of the city, and the city authorities object to a change of location. Second, to cross the river at right angles

on the south bank of the river, which renders a change impracticable, Third and greatest of all is that by reconstructing on its present site, we can build the new piers and shift the span thereto, leaving the space in the center for the two new spans of the increased length of 300 feet, and we figure that this work can be done before high water so as to save the present spans and prevent them from going into the river.

When once shifted to the new piers they would be safe from flood danger. Therefore we urge that the plans be approved at once and if possible secure approval by wire, in order that we can advertise for bids.

By order of the Board of County Commissioners.

(Signed F M Holcomb, County Clerk.)

Kansas City, Kan. May 19, 1913

To the Board of County Commissioners  
of Wyandotte County, Kansas

Gentlemen:-

We have under consideration your question as to the legality of awarding a contract for the building the Argentine Wagon Bridge, under the bids opened by you this morning. We find upon inquiry that neither the County Engineer nor the special engineer employed by the county have made any estimate of the cost of said bridge. The statute provides "the county surveyor of the county when so directed to do by the Board of County Commissioners shall make all necessary surveys and investigation and prepare plans and specifications for the reconstruction, improvement, removal or relocation of any bridge or the approaches thereto, together with an estimate under oath of the cost thereof and file such plans, specifications and estimate in the office of the County Clerk of the County. No contract shall be awarded for any such improvement at a price in excess of said estimated cost."

In our judgement the making of an estimate under oath and the filing of the same is jurisdictional and that your Board has no power to award any contract without said estimate being on file and if on file you could not award the contract for a sum in excess of such estimate. It is indeed unfortunate that the County has been put to the expense of advertising and that contractors have been put to the expense of investigating and bidding upon this work.

The statute further provides for the employment of special engineers for preparing plans and specifications for bridge work and we presume that your county engineer went upon the theory that the special engineers had prepared such estimate and placed the same on file. It was their duty so to do. Having failed to do so we see no alternative but to advise you that no contract can be awarded at this time. Without such estimate being on file the State Auditor would not audit your bonds nor would you be able to sell the same.

In the matter of agreement between the Missouri Valley Bridge and Iron Works and the Board of County Commissioners.

WHEREAS, in the year 1911, the Board of County Commissioners made an agreement with the Missouri Valley Bridge Company, of Leavenworth, Kansas, for the drawing of the plans and specifications for the reconstruction of bridges; and

WHEREAS, said Missouri Valley Bridge Company drew the plans and specifications for the James Street Bridge, and in doing so gave the soundings as to point where rock would be encountered as ten feet below where rock was encountered, and that said mistake or error has cost the County some eight or ten thousand dollars in the cost of the construction of said bridge; and

WHEREAS, the said Missouri Valley Bridge Company prepared the plans and specifications for the West Kansas Avenue bridge and in such plans and specifications omitted to specify or indicate expansion and contraction joints in the floor system of such bridge, and omitted further matters to an extent that caused a bill of extras to be filed against the County of about eight thousand dollars, and by reason of such mistake and omission bonds were issued on the original leaving the county without means or funds to pay for said extra work; and

WHEREAS, the said Missouri Valley Bridge Company drew plans and specifications for the Argentine Wagon Bridge, and the Board of County Commissioners, supposing that said plans were complete and definite and that all provisions of the statute had been complied with in the matter of preparing and filing an estimate of the cost thereof, duly advertised for bids and many bidders purchased plans and specifications and filed with the County bids on said work, and when said bids were opened it was ascertained that the said Missouri Valley Bridge Company had failed and neglected to prepare or file any estimate of the cost thereof, and by reason thereof the County was without power to award any contract even if so desired; and

WHEREAS, some bridge companies refused to bid on said work, claiming said plans were indefinite and imperfect and insufficient for the making of a close and careful bid thereon; and

WHEREAS, the Board of County Commissioners submitted the statements of said bridge companies who so refused to bid to the County Engineer of Wyandotte County Kansas, who reported in writing to this board that such plans were indefinite and uncertain and imperfect in many respects; and

WHEREAS, thereafter the Board of County Commissioners directed the Chairman of said Board to consult with an outside and independent engineer with respect to said plans; and

WHEREAS, the Chairman of the Board submitted said plans to L.R. Ash, Ex-City Engineer of Kansas City, Missouri, and

WHEREAS, said L.R. Ash in writing has specified and informed this Board that said plans are imperfect, indefinite and inadequate for close bidding thereon;

NOW THEREFORE BE RESOLVED, that the Board hereby declares null and void the contract and agreement heretofore entered into with the Missouri Valley Bridge Co by Wyandotte County, and that no further payments will be made thereunder, and that they be instructed to take no farther steps and do no farther work under and by virtue of said contract, and that the County Clerk of Wyandotte County, Kansas, be and he is hereby dir-

ected to furnish said Missouri Valley Bridge Company with a certified copy of this resolution.

In the matter of the removal of the old abutment under the east end of the James Street Bridge.

Bridge.

Ordered by the Board that said proposition be accepted.

Kansas City, Kansas Oct 20, 1913

To the Board of County Commissioners  
of Wyandotte County, Kansas.

Gentlemen;-

Referring to the reconstruction of the Turner Bridge by the addition of a span  
on the westerly end thereof of approximately 200 feet and the building of an earth fill for  
an approach thereto approximately 200 feet long will say that if you construct said fill  
upon a slope of one on one and a half with a 22 foot crown it will require 72 feet in  
width for the base at the widest point, which is 32 feet more than your right of way for  
a road. You will also need the dirt to make the fill.

As owner of the land on either side of your roadway I make you this proposition: For and  
in consideration of the sum of \$200.00 I will give you the right for your slope to extend  
out upon my land and will further give you the right to take dirt from either side thereof.

I reserving the right to designate as to which side and to what extent from each side  
the dirt shall be taken in quantities sufficient to make your fill. This is conditioned upon  
your making no excavation under the new span erected.

Yours very truly,

(Signed) James Canary.

WHEREAS at a meeting of the Board of County Commissioners this fourth day of May 1914, when claims and accounts were considered for allowance, Thomas W. Worthington County Auditor, disallowed a portion of the wages of E. A. Skinner, cook at the County Jail and a portion of the wages of Mrs E. A. Skinner matron at the County Jail, and disallowed the wages of Ben Robinson, an employee at the county jail, and

WHEREAS, the above named employees have been regularly employed by the Board of County Commissioners, the cook at \$75.00 per month; the matron at \$30.00 per month and the janitor and male attendant at \$70.00 per month which is reasonable compensation for their services and

WHEREAS, the expense of caring for and keeping the prisoners of the County Jail, has been reduced one-half, saving thousands of dollars annually, under the present arrangement, and

WHEREAS the condition of the county jail is excellent meeting the approval of the Board of County Commissioners and the endorsement of the Council of Clubs that has been suggesting ways and means for the betterment of conditions at the county jail, cooperating with the Board of County Commissioners for the welfare of the inmates of the county jail as indicated by a communication from the Council of Clubs to the Board of County Commissioners under date of March 24th 1914 as follows;

A committee from the Philanthropic Department of the Council of Clubs visited the

county Jail March 23rd, 1914 and found everything as satisfactory as could be expected under existing circumstances; the food was good and the men's quarters were clean except the leakage from the pipe in the bathrooms which ran into the corridor.

The Committee is especially pleased with conditions in the women's department and the management under the direction of the matron Mrs E. A. Skinner.

We understand that some changes are contemplated such as reducing the salaries of the matron and the cook, and having " trustees" do the janitor work. As citizens and taxpayers we object to this plan and request that these changes shall not be made

Respectfully yours.

Hon. Board of County Commissioners

In addition to the above the sum of \$9594.00 must be provided for to pay Hedrick and Cochrane for preparation of plans the same being 2 per cent of the contract price as per contract with them.

#### R E S O L U T I O N

Kansas City, Kansas.

Feb 1, 1915

To the Mercantile Club:

We, your committee appointed to consider the matter of the construction of a new court house for Wyandotte County, Kansas beg to report as follows:

That the present court house building is old, dilapidated and insufficient in size to accommodate the public business, and the county is now paying more than \$5000 a year in rent for other buildings for county officials and court rooms; that the present building is not fire-proof and the vaults of the Register of Deeds, Probate Judge and the Clerk of the District Court are not fire proof and that a fire loss in said building would cause damages that could scarcely be compensated in money

We therefore recommend that an expenditure not exceeding \$450,000.00 be made for the construction of a new court house including furnishings and any additional grounds; said court house to be located immediately West of and contiguous to 7th Street and between Minnesota Avenue and State Avenue.

Dated this 1st day of February 1915

Communication from Keplinger and Trickett in regard to the case in the District Court entitled Board of County Commissioners vs T W Sutherland.

Ordered by the Board that the same be approved and placed on file-

To The Honorable Board Of County Commissioners of Wyandotte County, Kansas.

Gentlemen: We herewith transmit to you a proposition from Mr. T W Sutherland to settle and adjust the litigation now pending against him.

In this connection permit us to repeat what we have said to you a number of times verbally that while there is no doubt in our mind of obtaining judgement for a much larger sum than the \$4000.00 offered yet with the information we have been able to obtain as to his financial condition we doubt your being able to collect by execution even this amount and therefore in our judgement it would be advisable to accept this offer. One of the surety companies that signed his bond is defunct and the other is liable for only the sum of \$2000.00

We transmit this proposition for your consideration and such action as you deem wise.

Yours truly,

Keplinger & Trickett

Resolution in regard to settlement of case in the District Court entitled Board of County Commissioners vs T W Sutherland.

R E S O L U T I O N

WHEREAS T W Sutherland has offered in writing to pay the sum of \$4000.00 together with all court costs and allowance to referee in settlement of the litigation now pending by Wyandotte County against him for fees due the County, and

WHEREAS the attorneys for the County advise the acceptance of said proposition for the reason that collection by execution after judgment is somewhat doubtful, and

WHEREAS the Board of County Commissioners believe it is to the best interest of the County to accept said sum and end the litigation,

NOW THEREFORE BE IT RESOLVED that said proposition be accepted and the attorneys for the County are hereby authorized empowered and directed to accept said sum of \$4000.00 and the costs and referees allowance in full settlement of the claim of the County and to dismiss or take such other action in disposing of said suits as may be necessary or advisable this order to be a nullity unless said payments are made.

Kansas City, Mo. March 8th, 1916.

County Commissioners, Wyandotte County,  
Kansas City, Kansas.

Gentlemen:--

Mr McAlpine and we have tabulated and summarized the bids received on the sixth inst. for the Central Avenue Bridge and Approaches and the results are shown on the accompanying blue prints. From these you will see that the lowest bid for contract No. 1 is that of the Missouri Valley Bridge and Iron Company of Leavenworth, which is \$200,160. The lowest bid for contract No. 2 is also that of the Missouri Valley Bridge and Iron Company which is \$192,661.27 assuming that the price per pound of material in items 11 and 12 is 0.7625¢ or \$15.25 per ton which agrees with the verbal statements made by the representatives of the Company at the time that the bids were opened.

The lowest bid for contract No. 3 Plan A that is available under the conditions indicated in the bid is from the Mid-West Construction Company, namely \$206,275.00, and under Plan B the bid of same Company is \$ 207,674.

An examination of the tabulated bids will show that there was quite a large variation in the bids for contract No. 1 while the variations in bids for contract No. 2 was very small, and that the two low bids available under the conditions indicated for contract No. 3 are very close, the difference being less than \$ 2000.

We believe that under the present conditions of the market the bids received are very favorable and it is our recommendation that contracts No. 1 and No. 2 be awarded the Missouri Valley Bridge and Iron Company at the prices set forth in their bid. We also recommend that contract No. 3 be awarded to the Mid-West Construction Company.

A careful investigation of these two Companies convinces us that they are thoroughly capable of executing the contract and we believe that if the work

is done by them in accordance with the plans and specifications the result will be entirely satisfactory to your Board.

Very Respectfully Yours  
Harrington Howard and Ash.

By L R Ash.

Resolution in regard to death of C W Litchfield.

## R E S O L U T I O N

BE IT RESOLVED; by the Board of County Commissioners of Wyandotte County ,  
Kansas.

That the sudden death of the Rev C W Litchfield recalls to our minds the efficient service which as a public officer he rendered with unfailing courtesy to the people of this County.

We recall with what persistent courage he strove to rise above the small things of world and reach a fuller spiritual life.

We rejoice in the success his efforts conquered , and the encouraging example he set before us.

His life appeals to us as one of victory and not of defeat, and in this spirit we mourn his death.

We direct that these expressions of appreciation be spread upon our journal, and that the County Clerk send a copy of them to his widow.

- R E S O L U T I O N -

May 15, 1916.

TO THE BOARD OF COUNTY COMMISSIONERS,  
WYANDOTTE COUNTY, KANSAS.

Gentlemen:

Referring to your resolution asking me to undertake the collection of delinquent real estate taxes, will say that I was only willing to consider said undertaking because of the emergency created by the recent decision of The Supreme Court of Kansas, and the necessity of this county securing payment of back taxes to the end of providing funds to tide over the present fiscal year. However, I am not willing to undertake such laborious work and in addition thereto assume a controversy with the County attorneys office.

The fact that the County attorney has instituted a suit to prevent such collection, will of itself render fruitless and impossible the collection of the taxes in time to do you any good during the present fiscal year. Such litigation could not be finally determined before the end of the present year.

Permit me therefore to decline the employment.

Yours Truly.

C W Trickett.

And said County attorney is hereby ordered and directed to forthwith institute such proceedings by filing a petition with the clerk of said court, giving a description of land, lot or piece of real estate, subject to the provision of this action, as are found delinquent in said tax roll record "Y" and stating the amount of taxes, interest, and penalties chargeable to each of said tracts of land, lots or pieces of real estate, against the owners and all parties having or claiming

to have some interest therein or thereto, and Give the date of sale for delinquent taxes, and that in case service by publication is necessary that such service be had by publication in the official county paper.
