The Drainage Board at this meeting, will consider the advisability of ordering the raising of the bridge approximately five feet, so that the floor and the lowest part of the superstructure will be above the established levee grade. Such a change in the elevation of the bridge will necessitate the raising of the street at each end of the bridge, for a distance of approximately two hundred feet. Any objection you may have to the raising of the bridge and the change in the grade of the street will be considered.

You are respectfully notified and requested to be present at said meeting and to present to said Board of Directors of the Kaw Valley Drainage District, at said meeting, any statements, evidence, arguments or objections, oral or written, that you may desire to make or have considered by said Board, relative to said matters.

BY ORDER OF THE BOARD OF DIRECTORS OF THE KAW VALLEY DRAINAGE DISTRICT OF WYANDOTTE COUNTY, KANSAS.

Made this 8th day of February, 1928.

J. W. Silvers, President of said Board.
C. W. Brenneisen, Vice-president and Treasurer of said Board.
Ed L. Mason, Secretary of said Board.

Attest :Ed L. Mason, Secretary of said Board.

As Board of Directors of the Kaw Valley Drainage District of Wyandotte County,
Kansas.

AND WHEREAS, said notice was duly served on the above named persons and corporations and :

WHEREAS, the Board of Directors of the Kaw Valley Drainage District of Wyandotte County Kansas, at the time and place specified in the foregoing notices, at a regular meeting of said Board, and at duly adjourned sessions thereof, all members thereof being present, have duly heard and considered all statements, evidence and matters of every kind, made or presented to them in regard to the matters referred to in the aforesaid notice :

NOW THEREFORE BE IT RESOLVED BY THE BOARD OF DIRECTORS OF THE KAW VALLEY DRAINAGE DISTRICT OF WYANDOTTE COUNTY, KANSAS.

1. That the said Argentine Boulevard Bridge, across the Kansas River, is found and declared to be a public bridge owned and controlled by the County of Wyandotte, and situated in the City of Kansas City, in the Kaw Valley Drainage District of Wyandotte County, Kansas, and said bridge as it now exists is now and hereby found, and declared to be and unlawful, wrongful and unauthorized obstruction in the bed and channel of the Kansas River, and the same as it now exists is hereby adjudged to be a public nuisance, and said nuisance is hereby ordered abated by the alteration and reconstruction of said bridge as herein after provided.
2. Said bridge is further found and declared to be constructed and maintained in an unsafe dangerous and improper manner in the following respects, and by reason thereof will contribute to and cause the overflow of the Kansas River at times of high water and floods therein.
 - a. That the steel super-structure of the three spans of said bridge next to the right or southerly bank were heretofore seriously weakened and damaged by the burning of the floor of said bridge.
 - b. That after the burning of the floor of said bridge and the injury and damage to the steel super-structure and floor of the bridge above mentioned, all of the blocks, planks, and wooden beams constituting the woodwork of the floor of said bridge, were removed, leaving only the steel super-structure of the bridge. That the bridge has for several months been, and is now closed for travel and traffic of any kind, and is used at the present time, only to support a small water main of the City of Kansas City, Kansas, located and constructed along the roadway, and which water main rests upon the steel floor-beams of the bridge.
 - c. That the steel superstructure and steel beams constituting parts of the floor of the Bridge, extend down into the channel and below the established grade of the levee; that by reason of said fire, the three center spans of said bridge (said bridge consisting altogether of five spans) have sagged below the level of said bridge a distance varying in amount up to two feet, three and five-eighths inches.
 - d. That the superstructure and floorbeams of the bridge are so planned, constructed and maintained that the same now obstruct the channel and the flow of waters in the channel of the river.
 - e. That heretofore, at various times, the waters of the Kansas River during floods therein, have at various times at the Argentine Boulevard Bridge, reached and exceeded the elevation of the floor-beams of said bridge as now maintained; and that from time to time, such floods and conditions will again occur in the Kansas River at said bridge.
 - f. That when the waters of the Kansas River rise to or near the elevation of the super-structure of said bridge, or flow upon or against same, there is great danger of ice gorges, and at other times great danger from drifts accumulating at and against said bridge, forming dams, by reason of which said bridge, or some of the spans thereof, are likely to be pushed or carried from the piers and abutments of said bridge and wrecked in the channel adjacent thereto, and that such dangers and difficulties of guarding against them, are greatly increased by reason of said bridge being maintained without any floor. That without any floor in said bridge, it will be impossible to protect said bridge against drift such as will accumulate thereat during the times of flood and highwater.
 - g. That the Kaw Valley Drainage District has constructed levees along both banks of the Kansas River to and above said bridge, at a cost of approximately two million dollars.
 - h. That the assessed valuation of taxable property in the District is over sixty million dollars, that more than twenty thousand peoples reside in the district; that a break in the levees of the district, such as may occur by reason of a span in said Argentine Boulevard Bridge being wrecked in the channel of the river, at or near said bridge, would endanger the lives of thousands of persons, and cause irreparable injury, loss, and damage to property and business carried on in the district.
 - i. That the elevation of the lowest part of the super-structure of said bridge, prior to the fire hereinbefore referred to, was approximately 346.69 feet above the St. Louis Directrix that that the elevation of the of the lowest part of the super-structure of the three center spans of said bridge (which consists of five spans) having due regard for the safety of persons and property in said drainage district, should be at least 348.69 feet above the St. Louis Directrix; that the elevation of the lowest part of the steel super-structure of both of the end spans of said bridge, at the landward ends thereof, should be at least 346.69 feet above the St. Louis Directrix, and at the riverward ends of said spans at least 348.69 feet above the St. Louis Directrix.
 - j. That the steel superstructure of said bridge as now constructed and maintained in its damaged condition, extends down into the channel, and below the elevation specified in the last preceding paragraph hereof, and thereby reduces materially and to a dangerous extent, the flood carrying capacity of the channel, and also causes and increases great danger of ice gorges and dams of drift forming at said bridge in times of high water, and thereby greatly and continually endangers the lives of the inhabitants, and safety of all property situated, and business carried on in the Kaw Valley Drainage District.
4. It is further found, declared necessary, ordered and adjudged; That the Board of County Commissioners of Wyandotte County, Kansas be and they are hereby authorized, empowered, directed and ordered to alter and to reconstruct said bridge, and abate the nuisance arising and resulting from the maintenance of the same in its present condition, by raising, altering and reconstructing the superstructure of said bridge so that the lowest part of the steel superstructure of the three center spans of said bridge shall be at an elevation of at least 346.69 feet above the St. Louis Directrix, and at the riverward end of said spans, at least 348.69 feet above the St. Louis Directrix.
5. It is found ordered and adjudged that the alteration and reconstruction of said bridge so that the floor and all of the steel superstructure of said bridge will be at or above the aforesaid elevations, is necessary for the protection of life and property in the Kaw Valley Drainage District.
6. It is ordered and adjudged that the work of raising, altering and reconstructing the present Argentine Boulevard Bridge shall be commenced within sixty days from the date of the adoption of this resolution, and completed within one-hundred fifty days from the date of the adoption of this resolution, and said time is found to be a reasonable and sufficient time for the commencement and completion of said work.
7. It is further ordered, that within three days, a certified copy of this resolution be filed with the County Clerk of Wyandotte County, Kansas, and another certified copy thereof delivered within said time to the Chairman of the Board of County Commissioners of said County, by the Clerk of the Board; and that unless the Board of County Commissioners within ten days from

the date of filing of such resolution with the County Clerk, notifies this Board in writing, that it will therewith, said Board shall be deemed to have refused to comply therewith.

8. It is further ordered that the Clerk of said Board shall within three days from this date, deliver a certified copy of this resolution to the Mayor of Kansas City, Kansas, and shall also file a copy thereof with the City Clerk of Kansas City, Kansas.

ADOPTED by the Board of Directors of the Kaw Valley Drainage District of Wyandotte County Kansas, at a regular meeting of said Board, and by unanimous vote of the members thereof this 21st day of February, 1928.

Honorable Board of County Commissioners.
Wyandotte County, Kansas.

Gentlemen :-

As requested by you, we have received the following bids on trees for the embellishment of the grounds of the Wyandotte County Court House :

Kansas City Nurseries, By Geo, H, Johnson Prop.	\$960.00
Holsinger Nursery, by L. E. Wilson.	983.50

Mr Bicklemeir submitted a bid for the Primrose Nursery, of \$906.00 based on a list different from the two bids mentioned above, and has not bid according to the revised list as figured on by the above mentioned nurseries.

Holsinger nurseries have the size trees required and called for and the greater number of specimens to select from. We visited the nursery where Mr Bicklemeier said his large cedars would be found and were informed that they had no such trees at this time.

You will notice in the Kansas City Nurseries bid that they have made a difference in the size of certain trees which, of course, reduces the cost, and this would make the Holsinger bid considerably lower.

We, therefore recommend that the bid of Holsinger Nursery be accepted and we suggest that work be started at once.

Yours very truly

Wight & Wight.

Board of Commissioners,
Wyandotte County,
Kansas City, Kansas.

Gentlemen :

In response to your conversation relative to employing me to defend the suit or the action ~~#####~~ or proceeding now pending in the United States District Court of Kansas, entitled " The Kansas City Railways Company vs The Board of County Commissioners of Wyandotte County, Kansas," no. 186-N, I would say; It is extremely difficult, if not impossible, to fix a reasonable fee under the circumstances, and so I think that the following proposition would be fair :

I am to receive a retainer of \$500.00 at once and the County to pay me, upon proper vouchers, the amounts I am obliged to disburse for traveling and other expenses incident to the defense of said case. At the termination of said case, I am to receive such an amount for my fee in the matter as may be decided informally and without any legal proceedings, by the four Judges of the District Court of Wyandotte County, Kansas.

If this proposition is satisfactory, I will accept the employment, but would like to be informed in regard to the matter at the very earliest date possible.

Yours respectfully,

James F. Getty.

May 24th, 1928.

Pursuant to adjournment taken May 21st, the Board of County Commissioners met for the transaction of business.

Present :- Samule Clarke, Chairman, Dave Espenlaub and Peter H. Kramer, Commissioners and William Beggs County Clerk.

Motion by Espenlaub, seconded by Kramer, that on recommendation of the County Engineer the contract for the reconstruction of the Argentine Bridge be let to the K. C. Structural Steel Co, and the Engineers recommendation copied in the Journal.

Motion carried all voting aye.

Board of Commissioners.
Gentlemen :-

In the matter of bids submitted to me for the reconstruction of the Argentine Boulevard Bridge, I herewith report as follows :

All of the bids with the exception of the Kansas City Bridge Company are under the estimate and are therefore entitled to your consideration.

The bids are in the following order and amounts together with their proposed date of completion :

Name of bidder	Amount	Date of completion.
E. W. Rand	\$50,355.00	November 30th, 1928.
K. C. Structural Steel	56,982.00	September 1st, 1928.
Fritzlen Hufford and Vermillion	57,459.00	November 1st, 1928
Carrother & Forsythe	62,750.00	December 1st, 1928.
Wisconsin Bridge Co.	65,283.00	November 1st, 1928.
K. C. Bridge Co.	73,894.00	January 1st, 1928.
Engineers Estimate	72,010.00	

From the above schedule you will see that nearly all the other bidders ask for a time period three months in excess of the second low bidder; viz; the K. C. Structural Steel Company.; this also applying to the second low bidder- the Rand Construction Company. In this connection permit me to make this observation; The paramount reason for constructing this bridge under the Drainage Act was to save the delay necessary by submitting the proposition to the voters or the other alternative of waiting to place same under next years bridge budget.

Then again this bridge is located on U. S. Highway #73E and its rerouting has thrown an extra burden on the west Kansas Ave Bridge, which you know owing to the condition of the floor is already overtaxed. The condition should be remedied as soon as possible. Only the other day a representative of the Omaha Office of the Bureau of public roads was here inquiring as to the progress being made toward reconstruction.

It seems therefore under the conditions outlined that the time limit is a very important consideration. I might also mention that due to the location of the plant

of the second bidder they also are in the best position to expedite this repair. I therefore recommend that you award this contract to the K. C. Structural Steel Company at their bid price of \$56,982.00 and that time be made the essence of the contract; They being the lowest responsible bidder.

The tenders of Rand and Fritzlen, Hufford and Vermillion should be held until the successful bidder furnishes bond.

Yours very truly,

O. K. Williamson, County Engineer.

RESOLUTION.

WHEREAS, pursuant to a notice duly published as required by law, the property of Wyandotte County, Kansas, known as the old court house site at Seventh Street and Minnesota Ave., Kansas City, Kansas, was on January 5th, 1928, sold at public vendue to Willard J. Breidenthal for One hundred Eighty Thousand Five Hundred Dollars (\$180,500.00), who in compliance with the provisions of such notice of sale, deposited with the County Clerk, certified check for an amount equal to 10% of the purchase price thereof, which sale was subsequently ratified by the Board of Commissioners, and

WHEREAS, Thereupon immediate steps were taken by the Board of County Commissioners preparatory to establishing a merchantable title to said property in order to complete said sale, and

WHEREAS, prior to the time of such sale and on the same day thereof certain persons claiming to be the equitable owners of said property served written notice on the Board of County Commissioners and also publicly announced that they challenged the right of Wyandotte County to sell said property, as well as the right of ownership by said County therein, and

WHEREAS, thereafter certain suits were filed by said contestants and are still pending, and undetermined, wherein they claim ownership and right of possession to said property adverse to the claim of Wyandotte County and its title thereto, which said suits in all expediency cannot be finally determined for an indefinite period, and which suits while so pending cast a cloud upon the title to said property, thus making it impossible for the county to tender to the purchaser a merchantable title thereto, and

WHEREAS, notice of such condition has been brought to the attention of the Board of County Commissioners by the purchaser, both orally and in writing, accompanied with a demand that the earnest money so deposited be returned to such purchaser,

FROM ALL OF WHICH CONDITIONS, and as a result thereof, it is the opinion of the Board of County Commissioners of Wyandotte County, that until the suits referred to and now pending have been finally determined, the county cannot furnish or tender a merchantable title to said property, and that such purchaser is equitably and legally entitled to be released of his contract of purchase and to a return of his deposit money so made,

NOW THEREFORE BE IT RESOLVED, by the Board of County Commissioners of Wyandotte County Kansas, that said purchaser be and he is hereby released from his contract of purchase, and that the deposit of earnest money so made by him be refunded; and that said sale be and the same is hereby rescinded, as upon the purchasers request.

Resolution adopted and passed all voting aye.

Board of County Commissioners.

July 19th, 1928.

Gentlemen :

I have submitted the low classified bid and the low unclassified bid to the State Department and it is their suggestion that while no bid was taken on special classification before signing up contract, they would award the contract under the classified bid.

In order to arrive at a figure for this I have checked up the bids on the Woodard-Garrett road and find that their average is 71 cents. The low bidder has agreed to accept 70 cents. With this explanation I submit the following as the three low bidders on the classified bid :

H. C. Botsford	\$26,428.50
R. G. Aldridge	29,368.79
Rand & Son	31,145.06

All of which are under the estimate. I hereby recommend that you award him this contract at his bid price of the sum of \$26,428.50. The tenders of the other above mentioned bidders should be retained until the successful bidder furnishes bond.

The tenders of the other bidders should be returned.

Yours Very Truly

O.K. Williamson.

Resolution

It appearing to the Board of County Commissioners, from the evidence before ie, that S A Polfer of Piper Kansas was prior to 1926 and now is the owner of the northwest part of lot 4, a one acre tract in Millers Subdivision, carried on the tax rolls as 8-A 174-12. That the taxes levied against said property for the year 1926 exclusive of interest and penalty was the sum of \$85.50, and the taxes levied against the property for the year 1927 exclusive of interest and penalties is the sum of \$82.83 or a total of \$168.33. That during said years the said owner of said property, has repeatedly tried to pay said taxes, and has offered and tendered to the County Treasurer the amount of taxes legally due on said property for each of said years, but that he was unable to pay said taxes or have same accepted, because of the

fact stated to him at the time of making such offer, that there was no property standing in his name on the tax rolls, on which any taxes were due.

The Board further finds that the interest and penalties have accrued against said property for the taxes legally assessed against it for the year 1926, in the sum of \$8.58 and for the year 1927 of \$8.70 or a total of \$17.28, on account of no fault of said owner. That thru his repeated efforts to pay his taxes on said property, and since the accruing of said penalties and interest it has been discovered and now appears upon the tax rolls that the property above described stands in the name of said S. A. Polfer and that he is ready and willing to pay all of said taxes, exclusive of penalties and interest and should be permitted to do so.

IT IS BY THE BOARD ORDERED, That there be cancelled from the tax rolls, the total sum of \$17.28 and as an erroneous tax, and that there be accepted from such owner, the sum of \$168.33, in full of the legal taxes now due on said property for the years 1926 and 1927.

Adopted and carried by unanimous vote of the Board.

The Board of County Commissioners.
Wyandotte County, Kansas.

Gentlemen :

There has been referred to us the question of the authority of the Board of Commissioners to pay for the services of a deputy surveyor.

This question has been somewhat difficult of determination, by reason of the various and apparent conflicting statutes enacted by the Legislature. Section 19-1401 of the R. S. provides that in counties of the classification numerically of Wyandotte County, the surveyor shall be elected. Section 19-1402 of the same act provides that the County Surveyor "may appoint such number of deputy surveyors under him as he may think proper." We are unable to find either in the general statutes or in the session laws of 1927, being chapter 217 that any provision has been made for the salary of a deputy surveyor.

The general rule of law governing the question under consideration is "that where deputies are employed by county officers, compensation for their can only be allowed as authorized by statute."

This rule has been quite uniformly upheld by the courts of the various states. The County Surveyor in his communication to the Board indicated that his duties were governed by the provisions of Sec. 28-220 R. S. and that among such duties he is required to keep his office open six days per week. This statute does not apply to Wyandotte County but only to counties of under 90,000 population. The duty of the Surveyor of Wyandotte with reference to keeping his office open is under Sec 19-1429 R. S., which provides that his office shall be open for the convenience of the public one day per week. Chapter 217, Laws 1927 relating to fees and salaries for surveyor provides as follows: "That all officers and persons herein mentioned in all counties having population over 125,000, shall receive the compensation herein allowed and no other fee mileage, salary or thing of value of any kind or nature unless specifically allowed them by the terms of this act. Sec 10 provides "the county surveyor shall receive a salary to be fixed by the Board of commissioners in a sum not to exceed 1800.00 per year. In view of the foregoing it is our opinion that the county is not legally liable for the salary of deputy." Attest William Beggs County Clerk. J.E. McFadden Frank Werner Chairman.

Motion by Espenlaub, seconded by Werner, that the Board of County Commissioners cause a survey to be made for the purpose of ascertaining the facts relative to the duties performed by the Highway Deputy Sheriff's during the last term of the present Sheriff, expiring January 14th 1929, for the purpose of determining during the new term of office just beginning the number of such highway Deputy Sheriffs, if any, that are needed in Wyandotte County; and having determined what duties have been so performed, to thus determine what fund should bear the expense of said salaries, if any, and to that end that the Board of County Commissioners request the County Clerk to transmit the following letter to the Sheriff of Wyandotte County, Kansas, respectfully requesting him at his earliest convenience to furnish a written report detailing the duties performed by such highway deputy sheriffs during the term ending January 14th, 1929.

To Harry B. Powers, Sheriff of Wyandotte County, Kansas.

As you know, the Board of County Commissioners at the beginning of the new term January 14th, 1929, announced a program of economy, and in keeping with said program are surveying the various expenditures in this County.

Section 19-807 Revised Statutes of Kansas 1923, reads as follows:

"19-807. Their Salary. That the salary of such deputy Sheriffs shall be paid from the County Road Fund or from the General Revenue Fund of the County. (L.1923 ; Ch. 116, 2; March 28.)"

This section just quoted immediately follows Section 19-806 and refers to the Highway Deputies.

Will you kindly, therefore, submit at your earliest convenience a written report showing the detailed duties performed by the Highway Deputy Sheriffs during your term ending January 14th, 1929, for the purpose of enabling this Board to determine what fund should properly bear the expense of the salaries of such highway deputy sheriffs, if any, and for the purpose of forming a judgement as to what number, if any, of such highway deputy sheriffs might be necessary during your new term of office beginning January 14th, 1929.

Signed: Bd of County Commissioners.

Motion carried all voting aye.

Motion by Clarke, seconded by Espenlaub, that the County Clerk be instructed to transmit the following communication to the County Treasurer ; to-wit;

Wm G Bird, County Treasurer.

On page 279, Chapter 217, Section 2, 1927 Session Laws of Kansas reads as follows; Sec.2. The County Treasurer shall receive a salary of \$3,250 per annum; Deputy 2100.00 per annum; and for additional clerks, to be appointed by him with the approval of the Board of County Commissioners, the Board of County Commissioners may authorize an expenditure of not exceeding \$12,000.00 per annum.

This section was carefully drawn by your predecessor in office after careful consideration of the needs of the Office of Treasurer of Wyandotte County.

Your expenses for the fiscal year of 1928 exceeded this amount approximately \$4,000, which was allowed by the Board of County Commissioners, and we think this amount of extra expenditure was without reason.

We feel that this \$12,000 per annum should not be exceeded.

Now if this amount is insufficient for the operation of your office, the legislature is in session and relief should be applied for from that body.

Trusting that you will receive this letter in the spirit it is written and co-operate fully with the Board of County Commissioners in the full compliance of this act above referred to, we may remain

Yours respectfully,

Board of County Commissioners.

Motion carried all voting aye.

Honorable Board of County Commissioners.
Wyandotte County, Kansas.

Gentlemen :

According to the recent request of the Attorney-General of Kansas, it will be necessary for each and every County Attorney of Counties within the State of Kansas to furnish the Attorney-General's office a complete record of all cases brought within their respective counties for violation of the prohibitory laws within the past ten years.

Owing to the great number of violations in this county of said law, it will necessitate a great deal of work to compile the above information for the Attorney-General.

The Attorney-General has suggested that a request be made to the Board of County Commissioners for additional help to compile said data.

I therefore request that the Board authorize the appointment of one person suitable to the Board and capable of compiling the above information.

You and each of you are hereby notified that at a regular meeting of the Board of County Commissioners of Wyandotte County, Kansas, held on Monday March 4th, 1929, a resolution and order was apssed and made by said Board, setting forth among other things, that it is found necessary to lay out the Muncie Blvd Rd (State Highway #32) between the DeFries Road and the Muncie Ridge Road along and against the northerly side of the right of way of the K. C. Kaw Valley & Western Railway between the above mentioned points for the purpose of eliminating dangerous turns and for the proper construction of said road.

A finding was made by the Board of County Commissioners that certain lands required for the improvement of said road could not be obtained either by purchase or donation and it was therefore necessary to exercise the right of eminent domain.

Whereupon an order was made that it was found necessary to acquire additional lands for the improvement of said roads and for such purpose it was necessary to condemn additional land along said right of way for the purpose of widening and such land as may be necessary for elimination of dangerous turns, the relocation of portions of said road and otherwise properly improving said road.

You are accordingly further notified that Dave Espenlaub, Frank Werner and Samuel Clarke, have been designated by the Board of County Commissioners to act as viewers, and they will meet on the 26th day of March 1929 at 10 oclock A. M. and proceed to view said road, the changes required and the lands necessary to be acquired in the making of said improvement and will begin such view at the intersection of the Muncie Blvd Road and the DeFries Road at the westerly terminal point of said road to be improved and will from thence proceed easterly to the east terminal point of said proposed improvement, and at such time the viewers will determine the value of the land, the amount required to be taken and condemned and assess damages thereto, and will forthwith file in the office of the Clerk of Wyandotte County, a written report of their findings and cause a plat of said road as changed to be filed therein.

And if for any reason they should fail to meet on the above date they will meet on the following day at the same time and place.

Honorable Board of County Commissioners.

Gentlemen :

In making up the 1927 tax sale book of delinquent taxes and the claim to the State for double and erroneous assessments and uncollected Personal Property Taxes, we find the County Treasurer's collections as posted on the tax rolls revealed eighty-four (84) erroneous collections not yet corrected, of which, forty-eight (48) were overpaid and thirty-six (36) were short collections.

In order to ascertain if these erroneous collections were actually made or if the Treasurers erred in posting them, we mailed notices to the taxpayers at the addresses given on the tax rolls asking them to bring their 1927 tax receipts in for verification. Thirty five of these parties have responded to the requests are aware of the errors in collections and await the corrections.

I personally have checked these collections thoroughly, and recommend to your Honor that an order be passed directing us to charge these short collections on the 1928 tax rolls without penalty and interest and to issue refunding certificates on the overpayments to these parties as follows :

J. Ollie Davis.
County Assessor.

Dear Sir :

This acknowledges receipt of your communication of the 26th inst. with reference to the assessment of a vacant lot whereon it is now discovered improvements were located. You state a question has arisen as to whether you may place an assessment on the property for the years in which no return was made.

We direct your attention to the provisions of R. S. 79-417. This section provides that it shall be the duty of the County Clerks, where lands for any reason have not been listed for taxation or have escaped taxation for any former years or years, to place the same on the assessment and tax rolls and charge up or carry out taxes against said lands equal to and in accordance with the tax levies that would have been charged had said land not been omitted. This section concludes with the proviso that no land shall be assessed where the same has changed ownership other than by will, inheritance or gift.

Although the foregoing section refers to "land" nevertheless this is broad enough to include improvements thereon. Under R. S. 79-102 in defining land, the statute provides that it shall include not only the land itself but all buildings fixtures, improvements, mines minerals, quarries, mineral springs and wells, rights and privileges appertaining thereto. You were perfectly correct in assessing the improvements on the property for the years 1925 to 1928 inclusive. In fact, under the Law, you could have gone back two more years, since you state that the improvements were constructed in 1923.

Very Truly Yours,
State Tax Commission.
C. B. Randall.
Attorney.

The Board of County Commissioners
of Wyandotte County, Kansas.

Gentlemen :

IN RE: The commonwealth Fire & Marine Insurance Company.

vs

William G. Bird, County Treas., The Bd of Co. Comm.
et al #34144, District Court, Wyandotte County, Kans.

With reference to the above entitled cause, will say that this is a case arising out of a difference of opinion between the Insurance Company and the assessor with reference to the valuation placed upon the property of the Insurance Company, - the assessor contending that the assessment should be on the valuation of \$276,310, arrived at in this manner: By taking the capitalization of the Company, to-wit, \$306,100, and deducting the real estate in Bourbon and Lane Counties amounting to \$29,790. leaving the valuation at \$276,310.

The Company, on the other hand, contends as follows : That in addition to its capitalization of \$306,100. it has a surplus of \$103,079.27, or a total valuation of \$409,179.27 from and out of which it claims it is entitled to deductions, as follows :

\$227,970. invested in bonds of municipal corporations in other states, upon which it has paid a tax of 10¢ per \$100. as per the direction of the Public Service Commission of 1927, the tax being in the amount of \$3,651.50 being for the term of the bonds. That in addition thereto, it is entitled to the deduction of \$166,450. in mortgages upon which its registration fees have been paid. Or a total deduction by reason of its investment of capitol stock in municipal bonds of other states, and in investments in mortgages upon which the registration fees have been paid, in the sum of \$394,420.

The company further contends that the only valuations upon which it could be taxed are office furniture, supplies and fixtures, in the amount of \$1,610. and \$823.81 in the bank, which according to my figures would amount to \$2,433.81. However in the petition of the plaintiff, they allege that the proper valuation upon which taxes should be paid is \$2,034.55.

In the light of the decisions of the Supreme Court of Kansas in the following case, to-wit

1. The Farmers and Bankers Life Insurance Co. vs Edward Anderson, as County Treasurer of Sedgwick County, 117 Kans. 451, decided in 1925.
2. The Davis Wellcome Mortgage Co. vs S. H. Haynes, as County Assessor of Shawnee County, et al. 119 Kans. 1. Decided July 9th, 1925.
3. The case of the State of Kansas ex rel Attorney General, vs S. H. Haynes, as County Assessor of Shawnee County Kansas, 128 Kans. appearing in advance sheets volume 3. Decided June 8th, 1929.

It is our opinion that there is a likelihood of the Commonwealth Fire & Marine Insurance Company prevailing in it above entitled cause.

However, we believe that we can compromise said cause, and that the Company will pay for the year 1928 upon the assessed valuation of \$40,000.; and for the reasons herein stated recommend that your Honorable Board cause said case to be so compromised.

This case is set for trial on Wednesday July 10, 1929.

Louis R. Gates, County Counsellor.
Blake A. Williamson, Assistant.

Motion by Espenlaub, seconded by Werner, that the advice and recommendation of the County Counsellor and his assistant with reference to the assessment of the Commonwealth Fire & Marine Insurance Company be heeded, and that said counsellors be instructed to compromise this suit for the assessed valuation of \$40,000. for 1928.

Motion by Clarke, seconded by Werner, that the following resolution and agreement in relation to maintenance and repairs of roads in Wyandotte County be adopted :

R E S O L U T I O N .

WHEREAS, the Board of County Commissioners and the Official Boards of each of the Townships in Wyandotte County, Kansas have had under consideration and have reached an agreement with respect to the maintenance and repair of benefit district roads for the ensuing year and up to October 1st, 1930, which agreement is in words and figures as follows :

-: MEMORANDA AGREEMENT :#

WHEREAS, the Legislature of Kansas on February 25th, 1929 enacted Chapter 225 Session Laws of 1929 relating to roads and highways, and altering and changing the distribution of funds by the state to counties and townships, and therein providing that of the amount to be distributed to Wyandotte County shall be divided between the County and the respective townships and further providing :

" That not less than fifty percent of said sum shall be used on township roads and bridges, and shall be divided among the various townships in each county in the proportion that the mileage of township roads in the various townships bears to the total mileage of township roads in the County."

and further depriving Wyandotte County of the motor vehicle tax heretofore going to the county for the maintenance and upkeep of county roads; and

WHEREAS, under prior laws it is provided that the County shall improve and maintain all county roads, and that the township highway commissioners shall improve and maintain all township roads, and in section 3 of Chapter 225 of the laws of 1929 it is further provided:

" That the highways heretofore designated as State Highways shall be a part of the State Highway System, and all other highways shall be either County Roads or Township Roads as provided for elsewhere in Kansas Statutes."

and in section 6 of chapter 255 of the laws of 1927 it is provided :

"Highways designated under this act shall be state highways and all other highways shall be either county roads or township roads as provided for elsewhere in Kansas Statutes.#

and under chapter 264 of the laws of 1917 (69-512 R. S. 1923) there was designated in Wyandotte County certain roads as county roads; and

WHEREAS, in this county there is an extensive mileage of roads constructed under chapter 265 of the laws of 1917 and amendments there to known and designated as "Benefit District Roads " and are not classified as either county roads or township roads; and,

WHEREAS, there is confusion and doubt as to whether the county or the township should maintain and repair such Benefit District Roads, notwithstanding the provisions of Chapter 68 -711 R. S. 1923, which reads :

" All roads improved under the provisions of this act (Benefit District Roads) shall thereafter be maintained and kept in repair by the County in which said improved roads are located in the same manner and method as required for Federal Aid Roads as indicated in Section 3 of Chapter 264 of the Session Laws of 1917."

And by reason of the further fact that said section 3 has been repealed; and furthermore it is claimed that said section 3 even if it had not been repealed only obligates the county to the

"making of needed repairs and the preservation of a reasonably smooth surface considering the type of road, but not extraordinary repairs." and therefore that the county should maintain only the central or paved portions of these benefit district Roads, and that the township should maintain the shoulders, ditches, the cutting of weeds and all other repairs; and,

WHEREAS, there is not sufficient time to secure judicial construction and interpretation of the highway laws prior to making levies and arrangements for the maintenance of these roads for the ensuing year; and,

WHEREAS, the Board of County Commissioners and the Boards of the various townships deem it absolutely necessary that all roads shall be maintained and kept in the best repair possible with funds available for said purpose, it is deemed necessary for the public good to arrange a compromise agreement and working basis for the maintenance of these "Benefit District" roads for the ensuing year, and up to October 1st, 1930.

THEREFORE, the following agreement is mutually entered into. That the Board of County Commissioners is to repair and maintain the surface of all benefit district roads, and the various townships agree to maintain all other repairs in their respective townships as follows :

State Of Kansas.

Office of Attorney General.

August 31st, 1929.

Hon. L. R. Gates,
County Counsellor,
Kansas City, Kansas.

Dear Judge Gates:

I recently received an inquiry from the Chamber of Commerce of Kansas City, Kansas, with reference to the authority of the County Commissioners to enter into a certain Contract with the Citizens Military Committee of Wyandotte County with reference to the agreement which would bind the County Commissioners to pay \$2,000.00 to the Citizens Military Committee for the maintenance of an armory for fifteen years for the Kansas National Guard stationed in Kansas City, Kansas.

I have considered the question with which you are no doubt familiar, and I have discussed with you several times, and the following is my opinion as to whether or not the County Commissioners of Wyandotte County may make a fifteen year contract under Sections 48-308 and 48-309 R. S.

I see no reason why they should not make such a contract. As a general rule, a political subdivision or a municipal corporation functions in two different ways. One of its functions is spoken of as being governmental and the other as being proprietary and insofar as its proprietary functions are concerned, it is ordinarily the rule that the municipal corporation or political subdivision may bind itself for the future, unless the subject matter of the contract is against public policy.

In this State we have three cases (Sheldon vs. Co. Commissioners, 48 Kan. 356; Coffey Co. vs. Smith, 50 Kan. 350, and Bank vs. Peck, 43 Kan. 643) holding that a Board of County Commissioners cannot bind its successors in designating a depository for funds of the county or in designating a public printer. However, a careful analysis of these cases shows that in the bank depository case the court goes upon the theory that there never was any authority to make a contract for even the term of the office of the Board of County Commissioners that made the contract. In other words, the court held that there was no authority to tie up the public funds for even a limited length of time, let alone a term extending beyond their term of office. Insofar as the public printer cases are concerned, the court in those cases went upon the theory that the action of the Board of County Commissioners was an interference with an express statutory duty laid upon each succeeding Board of County Commissioners, it became its express statutory duty to select a public printer.

Neither one of those two conditions applies to the question of the power of the Board of County Commissioners of Wyandotte County to enter into a contract for fifteen years under sections 48-308 and 48-309. In the first place there can be no question that the Board of County Commissioners has the power under that statute to give the money for the maintenance of the National Guard organizations within the boundaries of Wyandotte County during their term of office, and since they have the power to give the money, the statute may be construed to expressly authorize a contract to give the money. In the next place, there is no duty laid upon each new board of County Commissioners in

regard to the matter, with which this contract could interfere. The contract is clearly not against public policy, because the legislature has said that the public policy is in favor of donating to the National Guard organizations.

The question then arises as to whether or not such a contract would be an interference with the governmental power, and in view of the Columbus Water Works case, 48 Kan. 89, and the State vs. Water Co., 61 Kan. 547 at 561, and the Cherryvale Water Works Case, 65 Kans. 219 at P. 228, I do not believe that it would so be considered by our Court. In the Columbus Water Works Case the Court held that the Board of County Commissioners had power to bind their successors by making a long term contract for the supply of water to the city, although there was no such express statutory authority. There was authority to make a contract, but no express authority to contract for longer than their term of office, but the court held that the contract was not void and compelled the County Commissioners to levy a tax to pay the money due under the contract. In the Cherryvale case the court held that the action of the municipality in leasing water hydrants for a long term contract was an exercise of its proprietary powers rather than of its governmental powers, and the court said;

"In the making of such contract the city exercised quasi-private power and was governed by the rules applicable to an individual or a private corporation." At page 228, citing the case in 61 Kan. 547, 64 Kan. 645.

The Columbus case was also cited in Baxter Springs vs. Light Company, 64 Kan. 591. This was an action by the Power Company to recover for service furnished under an ordinance authorizing the Company to operate in the city. In this case the city was trying to evade the contract by reason of some infirmities in the execution of the contract, but the Court held that it would not be permitted to do so, and that,

"This rule of ordinary morals applies as strongly to municipalities as to individuals." At page 598.

The last case is Municipal Power Company vs. Lyndon, 127 Kan. 59, in No. 1 of the advance sheets, in which the court held that the city of Lyndon could not repudiate a contract to take and pay for electric current. The contract had not been published as required by law. The Court said:

"Lyndon is also estopped, even if it be conceded Quenemo lacked power to contract. The contract on Quenemo's side was not illegal or immoral. It was simply unauthorized." At page 67.

The county in the proposed contract is really helping to lease an armory for a period of fifteen years for the benefit of National Guard organizations within its limits, and it is my opinion that the Supreme Court would consider that this was an act involving the proprietary power of the County in the same way that the lease for the water hydrants was in the Cherryvale Case.

In answer to your question, therefore, it is my opinion that there is nothing in the Constitution or statutes of the State of Kansas which invalidates such a proposed contract, and in my judgment such a proposed contract is within the legal powers of the Board of County Commissioners and they are authorized to enter into such a contract and to bind their successors by so doing.

In the event that I should be wrong, and that some question should arise about it in the future which the Supreme Court should decide contrary to my opinion, I quite agree with you that there could be no personal liability upon the County Commissioners for acting on my opinion as Attorney-General. They unquestionably have the right to be guided by the opinion of the Attorney-General until the Supreme Court decides to the contrary. As Judge Dillon, the great authority on municipal corporations says:

"But the courts have refused to hold the officers of a municipality personally liable for contracts ultra vires in the absence of actual fraud or deception." Vol. 1, Page 776, Sec. 443 (5th Ed.).

It is also my opinion that money donated by the County under the contract may be used to help pay the construction cost of the Armory Building and to retire the principal and interest of the bonds issued upon it, in the same way as the rent from the State under a fifteen year lease from the Military Board. The State vs. Topeka, 68 Kan. 177, held that a city might purchase a system of water works subject to an incumbrance not payable for more than twenty years and which was paid for by issuing bonds subject to the incumbrance, although there was no express statutory authority and although the court stated that the city could not have mortgaged the property without such express statutory authority. I have examined the contract and proceedings submitted by Messrs. Lee and Oman and approve of them.

Very Truly yours,
Signed: William A. Smith,
Attorney-General.

WAS:F

P.S.

Upon reading this opinion I notice that I say at the bottom of Page 2 that the court in the Columbus Water Works Case held that the Board of County Commissioners had power to bind their successors. I meant to say that the governing body of the municipal corporation had such power, and the opinion should so read.

WITNESSETH that whereas the Owner intends to equip and furnish the building, known as The Wyandotte County Court House, as a combined court house and jail, in accordance with the Resolution of the Board of County Commissioners of Wyandotte County, Kansas, adopted the 28th day of Oct. 1929.

NOW? THEREFORE, the Owner and the Architects, for the considerations hereinafter named, agree as follows:

ARTICLE 1.

The Architects agree to perform, for the above named work, professional services as follows:

- A. The Architects are to prepare preliminary plans, general drawings, details and specifications for the equipping and furnishing of said Court House and jail building.
- B. The Architects are to supervise the execution of the work.
- C. The Architects are to prepare or advise as to all forms connected with the making of proposals and contracts, if so directed; to issue all certificates of payment and generally to discharge the usual architectural duties connected with the work.

ARTICLE 2.

The Owner agrees to pay the Architects for their services a sum equal to six percent (6%) of the total cost of the work, which said six per cent (6%) shall be payable as follows: Two per cent (2%) upon completion of preliminary studies; Two and one-half per cent (2½%) additional when the general drawings and specifications are completed; One and one-half per cent (1½%) additional from time to time in proportion to the progress of the work, based upon the certificates issued, or payments made, to Contractors.

The words-"the total cost of the work" as used in Article 2 are to be interpreted as the cost of all materials and labor entering into the execution of the work.

It is agreed that until the definite cost of the work is known, the fee to be paid to the Architects as called for in Article 2, shall be based upon an approximate estimated cost of the work, and the payments received by the Architects from the Owner during such time shall be considered as installments of the entire fee which shall be based on the total cost of the work, as outlined herein, when completed.

ARTICLE 3.

The Owner is to reimburse the Architects the costs of transportation and living incurred by them while travelling in discharge of duties connected with the work.

ARTICLE 4.

No deductions shall be made from the Architects' fee on account of penalty, liquidated damages, or other sums withheld from payment to contractors.

ARTICLE 5.

The Owner shall give the Architects all necessary information as to the requirements for the building. The Owner shall give thorough consideration to all sketches, drawings, specifications, proposals, contracts and other documents laid before it by the Architects, and, whenever prompt action is necessary, it shall inform the Architects of its decision in such reasonable time as not to delay the work of the Architects nor to prevent them from giving drawings or instructions to contractors in due season.

ARTICLE 6.

All questions in dispute under this Agreement shall be submitted to arbitration at the choice of either party. The parties may agree upon one arbitrator; otherwise there shall be three, one named in writing by each party, and the third chosen by these two arbitrators, or if they fail to select a third within ten days he shall be chosen by the presiding officer of the local Bar Association. Should the party demanding arbitration fail to name an arbitrator within ten days of his demand, his right to arbitration shall lapse. Should the other party fail to choose an arbitrator within the said ten days, then such presiding officer shall appoint such arbitrator. Should either party refuse or neglect to supply the arbitrators with any papers of information demanded in writing, the arbitrators are empowered by both parties to proceed "ex parte". If there be one arbitrator his decision shall be binding; if three, the decision of any two shall be binding and such decision shall be a condition precedent to any right of legal action. The Arbitrators shall fix their own compensation, unless otherwise provided by agreement, and shall assess the costs and charges of the arbitration upon either or both parties. The award of the arbitrators must be in writing, the general procedure shall conform to the laws of the State of Kansas and nothing herein shall be construed as intended to set aside the jurisdiction of the Courts.

We grieve to learn of the death on the 29th instant of Frank D. Hutchings, Judge of the 2nd Division of the District Court of this County, as in his demise Wyandotte County and the State of Kansas has suffered an irreparable loss.

We miss him as a friend and neighbor, while the people of this county deeply feel that they are now deprived of the services of a great Judge; One who was just and honorable in all his judicial acts.

We, who knew him well, can testify to his fine character and kindly disposition and can point to his record as that of an upright and painstaking official.

We extend our warmest sympathy to his immediate family and share in the grief that has taken possession of his home.

TO THE BOARD OF COUNTY COMMISSIONERS OF WYANDOTTE COUNTY KANSAS.

APPLICATION OF GREAT WESTERN ELEVATOR FOR CORRECTION OF THE VALUATION OF ITS PERSONAL PROPERTY FOR 1929.

Applicant, The Great Western Elevator Company, a corporation, organized and existing under and by virtue of the laws of the State of Missouri and operating in the State of Kansas under and by virtue of the laws of the State of Kansas, respectfully submits to the Board of County Commissioners of Wyandotte County, Kansas:

That the valuation placed upon its personal property in the State of Kansas for the year 1929 by the assessor was erroneous, unjust and based in part upon property which was not subject to taxation by the State of Kansas, for the following reasons:

1
 Your applicant shows to the Board of County Commissioners of Wyandotte County, Kansas that it delivered to the Assessor of Wyandotte County Kansas, in the manner provided by law its schedule of returns and personal property in the State of Kansas, according to which schedule the taxable property listed for the year 1929 had a valuation of \$22,170.00, the tax on which, computed in the regular tax rate, would be \$908.97. This computation was based upon its regular journals and books, which showed the true amount of personal property belonging to the applicant which was in the State of Kansas.

2
 Applicant further shows to the Board of County Commissioners of Wyandotte County, Kansas, that the Assessor valued applicant's property in the State of Kansas for the purposes of taxation for the year 1929 at \$36,170.00, making a tax in the amount of \$1482.97.

3
 Applicant further shows to the Board of County Commissioners of Wyandotte County, Kansas, that the valuation and computation made by the assessor and the amount of tax levied is unjust and erroneous, for the reason that the valuation of property in excess of 22,170.00, which is the amount shown on applicant's return to the assessor, is based upon property which was merely held by the applicant and in which applicant had no interest other than the mere handling and storing of such property. Applicant further shows to the Board that the difference between the valuation made by the Assessor and upon which the tax was levied and the amount shown by the applicant is \$14,000.00. The tax levied, based upon the erroneous valuation of \$36,170.00 is \$1482.97. The correct valuation of applicants property, subject to the taxation

for the year 1929 was \$22,170.00 as shown by the return of the applicant heretofore duly filed. The tax upon which would have been \$908.97, which is the correct amount. There is therefore an excess valuation of \$14,000.00 and an excess tax based upon that erroneous valuation of \$574.00 and applicant respectfully requests that this Board correct the erroneous valuation of \$36,170 and set it at 22,170 which is the correct valuation of applicants taxable property in the State of Kansas for the year 1929.

J. H. Brady. Attorney for applicant.

STIPULATION AND AGREEMENT.

In consideration of the granting of the application of the Great Western Elevator Company, heretofore filed, requesting a correction of the assessment and valuation for the purposes of taxation, of its personal property in the State of Kansas for 1929,

IT IS HEREBY AGREED by the applicant herein, The Great Western Elevator Company, that the decision of the Board of County Commissioners of Wyandotte County, Kansas, in this particular matter shall be binding upon said Board of County Commissioners only for the purposes of determining the instant controversy, and shall not be construed as establishing a precedent by which said Board shall be governed in future controversies of a similar nature, if any there be

Honorable Board of County Commissioners,
Kansas City, Kansas.
Gentlemen :

Your Advisory Committee takes this opportunity of submitting its recommendations concerning the awarding of the contract for the new county poor farm building. These recommendations are the result of consideration of all the factors involved and we trust they will be of assistance to your honorable Board.

We do not favor the joist bar type of construction. We have consulted competent architects who advise that concrete fireproof construction should be selected if durability and stability are desired in the building. Fireproof construction will result in a material saving in insurance during the entire life of the building. In view of these considerations we do not favor any other type of construction except fireproof concrete construction.

Under option No. 3, we do not favor the use of colored cement flooring. We recommend that linoleum floors be laid now or at some future time.

Under option No. 4, we recommend the use of face brick for the rear elevation believing that this will add appreciably to the appearance of the building with very little if any, increase in cost.

Under option No. 5, (use of colonial brick for entire building) we have no preference to express. The amount involved is slight.

Under option No. 6, have no preference to express.

Under option No. 7, recommend that wooden doors instead of metal doors be selected believing that they will meet all requirements and result in a saving.

Under option No. 8, we do not favor California Stucco Sand Finish as we regard it less sanitary than plain sand finish. So far as we can learn, it is not customary to use California Stucco sand finish in a building of this type. We recommend plain sand finish.

Under option No. 9, (Terra Cotta versus Cut Stone) we have no preference to express.

Under option No. 10, we recommend the use of steel instead of wood sashes since there is so little difference in cost.

Under option No. 11, we recommend the use of copper gutters instead of galvanized iron because of the permanency of copper gutters and the very slight additional cost.

Under option No. 12, we understand that the County can secure plate glass in the required sizes at a very good price. We recommend the use of plate glass.

Under option No. 13, we see no need for excavating all of the basement, especially in view of the very large additional cost. We recommend the work done as per the original specifications.

Respectfully submitted,
J. S. Winters, Chairman
Laurence E. Wilson
Herman Theden

Board of County Commissioners.
Wyandotte County, Kansas.

Gentlemen :

I have a copy of a letter of Mr Benjamin Schnierle, County Auditor, dated May 3rd, 1930 addressed to K. L. Browne, President of Peoples National Bank of Kansas City, Kansas, in which letter is set out that the assessed valuation of Wyandotte County for the year 1929 was \$165,000,000.00 in round numbers, and that the levy for the Poor Fund was \$.05 on the \$100.00 valuation, which would raise the sum of \$82,500.00 if all were collected, and in addition to that there would be proceeds from the sales from the Farm which would bring an additional revenue in the sum of approximately \$1000.00 making a total approximate revenue to be used for the fiscal year October 1st, 1929 to October 1, 1930 of\$83,500.00.

I also note from Mr Schnierle's letter that the following bills were allowed and warrants drawn against the Poor Fund :

In October 1929	\$8,460.14
" November	8,717.04
" December	10,227.77
" January 1930	10,748.36
" February	10,655.71
" March	9,749.73
Total	\$58,558.75

I also note from Mr Schnierle's letter that there should be certain deductions from the total of \$58,558.75 of warrants drawn as follows :

Bills contracted in September 1929	\$8,460.14
Hospital bills in month of March 1930 allowed but warrants not delivered	1,677.00
Allowances to organization in March 1930 but Warrants not delivered	678.00
Allowance for bills contracted and due from 1928 revenue, but allowed in the year 1930	311.00
Total Deductions	\$11,126.14

leaving a balance properly chargeable and payable out of the revenue derived from 1929 taxes in the sum of\$47,432.61.

Therefore, after deducting the amounts properly chargeable to the 1929 revenue of the amount of \$47,432.61, there remains a balance due properly to be spent from and out of the 1929 revenue, of the sum of \$36,067.39.

Based upon these figures quoted above taken from a copy of Mr Schnierle's letter of May 3rd, 1930 as above mentioned, - the question arises- Has the Board of County Commissioners of Wyandotte County, Kansas, authority to issue warrants drawn against the poor fund in the sum of \$36,067.39 up to October 1, 1930, in the event that the taxes collected prior to October 1, 1930 are not sufficient to pay said warrants so drawn ?

Sec. 19-241 of th R.S. of Kansas 1923, provides among other things :

"and it shall be unlawful for any Board of County Commissioners or County Clerk to issue county warrants or orders in any one year to a greater amount than the amount of the county tax levied in the same year to defray county charges and expenses less the amount levied for delinquencies."

The Supreme Court of Kansas in interpreting this section, in the case of the Leavenworth National Bank et al vs. H. V. Reilly, as County Treas. et al, 97 Kansas 817, the syllabus is as follows :

"3. County Warrants- Limitation of issue. The issue of warrants in any one fiscal year to defray the general expenses of Leavenworth County is limited to the maximum revenues which the levy for that fiscal year will produce, and is determinable by a calculation applying the levy to the assessed valuation of the County.

"5. Void County Warrants- Issued for valid indebtedness- May be paid how. When county warrants have been issued in excess of the general maximum revenue fund for the current fiscal year, but for which the county ~~get~~ value received, they can be paid in two ways; (1) by the slow collection of delinquent taxes and miscellaneous items which may inure to the general revenue fund; or (2) by application to the legislature and obtaining its sanction authorizing their payment out of later general revenues of the County.

"9. Void County Warrants- Purchasers Subrogated to Rights of Original Creditors- Payment by Future levies.

Where county warrants are void only because issued in excess of the maximum revenues derivable from the general levy for the current fiscal year, the holders of such warrants are subrogated to the rights of the original creditors whose claims against the County were the basis of such void warrants; and if the claims were lawful, the county is liable to the subrogated holders of such claims and provisions may be made to meet their payment in future annual levies, but no such future annual levy can exceed the maximum allowed by statute."

It will thus be seen that the case just cited dealt with a situation wherein Leavenworth County fund in March 1915 it was without funds to pay its current obligations matured and maturing during the year 1915, except by issuing County Warrants; that such county warrants, in the amount of \$24,793.95 were issued between April 1, 1915 and November 1, 1915 and presented to the County Treasurer and registered, numbered and stamped "not paid for Wand of Funds."

It was therefore admitted that Leavenworth County could lawfully raise by taxation for current expenses during the year 1915, the sum of \$52,000.

On November 1, 1915 the new tax money having come in, there were ample funds on hand to pay these warrants in the amount of \$24,793.95,- but when they were presented to the County Treasurer for payment he refused on the ground that the funds raised by the levy in August 1915 and collected in November 1915, could not be used to pay off the warrants issued between March 1915, and November 1915 in the amount of \$24,793.95, because they were properly payable out of the tax revenues received for the year 1914, in November 1914 and in June 1915.

The Supreme Court upheld the contention of the County Treasurer and denied the writ of mandamus to compel the treasurer so to pay them, but in the opinion on page 827 said;

" We have treated the warrants as void for the reasons given. In one sense they are not void. Without the aid of the doctrine of subrogation and the presentation of new vouchers and the issue of new warrants they could be lawfully paid out of any funds which may yet be collected from the levy of 1914 and preceding years. But that would be slow and probably altogether insufficient. It is also true that the Legislature might authorize the payment by the County."

In the present case of Wyandotte County, as I interpret the figures quoted herein from Mr Schniele's letter of May 3rd, 1930, warrants have been issued for indebtedness prior to October 1, 1929, and paid out of the 1929 revenue in the amounts of \$8,460.14 and \$311.00 respectively, hereinabove set out.

These last mentioned amounts were not properly payable out of the 1929 revenue, yet having deducted these, there remains to be properly paid of the 1929 tax revenue itself for 1929 warrants on the Poor Fund, the sum of \$36,067.39.

Based on all the above figures, it is my opinion that the Board of County Commissioners has the power to issue warrants drawn on the Poor Fund from now until October 1, 1930, for the payment of obligations created during the fiscal year October 1, 1929 to October 1, 1930, in an amount not to exceed \$36,067.39.

In the matter of the application on behalf of the County Board of equalization of Wyandotte County, Kansas for an extension of time to perform duties of equalization.

ORDER.

On May 27th, 1930, Mr. Sam Clark, a member of the Board of County Commissioners of Wyandotte County, and Mr. Louis R. Gates, County Counsellor of said County, appeared before the State Tax Commission and requested that an order be made by this Commission granting authority to the County Board of Wyandotte County extending the time said Board should sit in the capacity of a County Board of equalization. A request was thereupon made for an extension of time to enable said Board of Equalization to perform its duties. The State Tax Commission finds that the facts as presented are correct and an extension of time is necessary to enable are correct and an extension of time is necessary to enable said Board of Equalization to fully complete its duties.

It is, therefore, on this 28th day of May, 1930, by the State Tax Commission,

Ordered, that the time for equalizing property by the Wyandotte, County Board of Equalization be extended to June 7th, 1930, whereupon said Board shall adjourn for ten days and re-convene on June 17th and remain in session for three days for the purpose of hearing complaints, and adjourn sine die on June 19th, 1930.

Board of County Commissioners of
Wyandotte County, Kansas.

Gentlemen :-

With reference to your inquiry concerning Deputy Assessors Bonds, advise you as follows :

Section 79-1414, R. S. of Kansas 1923, among other things provides as follows :

"Every deputy assessor before entering upon the duties of his office, shall take and subscribe an oath to well, faithfully and impartially perform such duties, and shall execute a bond to the State of Kansas, with good and sufficient sureties, to be approved by the County Clerk, in such sum as the County Commissioners shall fix, not less than \$300.00 in any case; said bond to be conditioned for the faithful performance of all duties imposed by law."

It is our opinion that deputy assessors must give bond to the State of Kansas, conditioned as above set forth; that the Board of County Commissioners have the power to set the amount of same, not to exceed \$300.00 in any case.

We see no necessity for Township Trustees to give an additional bond, as they are required by law to give an official bond for the faithful performance of their duties and one of their duties as prescribed by law is assessing in their respective townships.

It is our further opinion that it is not necessary that a surety bond be given but that a personal bond may be signed by good and sufficient surety, subject to the approval of the County Clerk.

We might say for the Board's information that after a search we are unable to find where any suit has been filed against either the Board of County Commissioners or the County Assessor in this county involving any liability on the part of the county for default of deputy assessors.

Respectfully submitted,

Blake A Williamson. County Counsellor.

Geo. E. Gard. Assistant.

Motion by Werner, seconded by Clarke, that opinion and resolution of County Counsellor with reference to cancellation of paid warrants be received and filed and copied in full on the Journal. Motion carried all voting aye.

Board of County Commissioners.
Wyandotte County, Kansas.

Gentlemen :-

In reply to your inquiry submitted to our office concerning the power of the Board of County Commissioners to cancel all warrants paid through the Treasurer's Office and maintain a proper list and docket of same, advise you as follows :

"Section 21-1606 R. S. of Kansas 1923, provides as follows: Payment and redemption of warrants. Every state and county treasurer in this state shall pay for and redeem any state or county warrant presented to him for redemption at the time of its presentation, and if so paid shall mark the same "Paid" with red ink, on its face, and the date when paid, at the time of payment, and sign the same: Provided, there is money then in his possession sufficient to pay the same; and if there is not sufficient money in his hands to pay such warrant, he shall make a certificate of that fact upon the back of said warrant, and date and sign the same."

This defines the duty of the County Treasurer and in all cases where the warrant is paid by the Treasurer the word paid should be marked in red ink across the face of said warrant.

Section 19-320 R. S. 1923 provides as follows :

"Unclaimed Warrants". Whenever any county warrant, issued to any person, remain in the office of the County Clerk unclaimed for a period of three years from the date thereof, such warrants shall be returned by him to the Board of County Commissioners and cancelled."

This provision of the Statute is mandatory and the Board of County Commissioners must cancel all unpaid warrants which have been drawn for a period of three years.

Section 19-226 provides as follows:

Record of orders. The board of County Commissioners, at their July session of each year or oftener if they deem it necessary, shall carefully examine the County orders returned by the county treasurer, by comparing each order with the record in the county clerks office. They shall cause to be entered on said record, opposite to the entry of each order issued, the date when same was cancelled. They shall also make a list of the orders so cancelled, specifying the date, amount, and the person to whom the same was payable, and enter same on the Journal of the Board."

In our opinion this statute is for the purpose of an audit by the County Board and once each year such a meeting should be held if the Commissioners deem it advisable.

Section 19-307, R. S. 1923, provides that the County Clerk shall not sign or execute any county order until ordered by the commissioners to do so.

Section 19-212, provides among other things, that the Board of County Commissioners are to perform certain duties prescribed therein and to perform such other duties as are or may be prescribed by law.

It is our opinion from an examination of these statutes that there is no mandatory provision in the statutes compelling the Board of County Commissioners to cancel warrants which have been paid by the County Treasurer and returned to the County Clerk. It is our further opinion that it will expedite the business in the Court House and provide a better record on the outstanding warrants and those that have been paid, if the Board authorizes the County Clerk to perform this work and provide suitable dockets, lists, etc., to take care of same.

We are enclosing a resolution authorizing the County Clerk to take over this duty and provide suitable dockets, lists, etc., for carrying on this work.

Respectfully submitted,

Blake A. Williamson, County Counsellor.
George E. Gard, Assistant.

RESOLUTION.

WHEREAS, the County Clerk of Wyandotte County Kansas, is hereby ordered to cancel all warrants which have heretofore been paid by the County Treasurer of Wyandotte County, or otherwise as provided by law and said county clerk is further authorized to procure suitable dockets and prepare such lists as are necessary, showing the number of each order returned and the date of its cancellation, together with the amount of same and the name of the person to whom it is issued.

Board of County Commissioners.
Wyandotte County, Kansas.

Gentlemen :-

With reference to the assessment of the Huron Investment Company referred to us on April 16th, advise you as follows:

We have made an investigation of the property owned by the Huron Investment Company and Frank L. Travis, the president, has exhibited to us receipts for the payment of State Taxes required on numerous bonds, amounting to \$84,000.00.

He also has exhibited to us receipts from various County Treasurers of Counties in Kansas, showing the payment of \$34,913.00 registration tax for mortgages held on real estate in various counties in Kansas.

A further investigation shows that this amount of \$118,813.00, was taken into consideration by the Assessors in their tax statement and finding a valuation of \$269,640.00, taxable assets of the Huron Investment Company.

We advise you that under the recent decisions of the Supreme Court these intangibles are not taxable, and therefore recommend that the Board of County Commissioners make an order removing from the assessment \$118,813.00, that is intangibles securities consisting of Mortgages, bonds on which the tax has heretofore been paid and have the County Clerk change the records in his office and in the Treasurers Office and accept payment of taxes on an assessed valuation of \$151,117.00, the difference between the original assessment of \$269,930.00, and the amount of \$118,930.00, invested in exempt securities.

Respectfully submitted,

Board of County Commissioners.
Wyandotte County, Kansas.

Gentlemen :

On the contract awarded to me for the re-flooring of the East Kansas Ave bridge or 23rd St viaduct, we have decided it will speed up the work to poor the south half of the flooring first.

It is my opinion that no damage will be done to the north half if I allowed same to be opened to loaded truck travel only.

If the Board of County Commissioners will allow me to open the north half of the 23rd Street Viaduct to loaded truck travel, I agree that I will place a watchman at each end of the bridge to regulate travel across said viaduct or bridge and I further agree that I will be responsible and indemnify the County against any loss by reason of personal injury or property damage sustained as a result of any truck breaking thru said viaduct.

I personally feel that this will not interfere nor delay the construction of said bridge and in the event the Board of County Commissioners grant my request to allow me to open this north half for loaded truck travel, I will stand responsible and agree to indemnify the county against any accident, collision, breaking thru said bridge, damages or personal injuries which may result from opening said viaduct or bridge.

Respectfully,

E. W. Rand.

Board of County Commissioners.
Kansas City, Kansas.
Gentlemen :-

It is my duty to inform you that at a special meeting of this Association held this date, it was unanimously agreed by the member banks to grant your request for assistance in very materially reducing you proposed levy for taxation purposes this coming year.

To accomplish this saving of approximately ten and one-half cents in the tax rate the member banks will abide by the tentative agreement reached during recent conversations between yourselves and a committee from this association, which agreement, in brief, provides for member banks of this association carrying for a fixed period beyond their maturity Wyandotte County Bonds in an amount not to exceed \$150,000.00.

Further details in connection with this financing will be handled by the same committee of this association as has carried the negotiations with your Board to this accord.

The member banks have instructed me to make known to you their pleasure in thus being able to render you, and thorough you the tax payers of Wyandotte County this service, and it is their hope that you will be able to effect further economies in your budget to the end that very little, if any, increase in the coming years tax rate will be necessary.

Yours very truly,
C. L. Wilson. Manager.

Blake A. Williamson.
County Counsellor,
Kansas City, Kansas.

Dear Sir :-

Pursuant to our conversation of recent Date I have given further consideration to my opinion dated August 17th with reference to the apportion of costs for the building of a benefit district road which lies entirely on the County Line between Johnson and Wyandotte County.

In that opinion I stated that the apportionment of costs should be made under the provisions of R. S. 68-716. After reconsidering the matter, it is my opinion that where the road in question is entirely on the County Line and no part of it extends into either county that the apportionment provisions of R. S. 68-716 do not apply, and the apportionment is made in the proportion provided by the general provisions of the benefit district Statute.

Very truly yours,
Roland Boynton, Attorney-General.

Resolution of the Board of County Commissioners.

WHEREAS, Under Tax Sale Suit # 78, settlement and compromise of Taxes on Tract 70-A, being north $\frac{1}{2}$ of SE $\frac{1}{4}$ Sec 17-11-25, containing 12.310 acres more or less, in Kansas City, Kansas,

has heretofore been entered by decrees of the Court in said cause, and there has been paid by the owner for said taxes as compromised the sum of \$3000.00 for the years 1925-1926-1927-1928 and 1929, and;

Whereas, by said decree so entered in said cause #78 the owner has paid said \$3000.00, together with the full amount of the tax for the year 1930; and ,

Whereas, by said decree as entered an error in settlement of said decree has been made, thereby affecting the title to said property, and making it necessary to set aside or re-open said decree in order to fully discharge said property from any taxes during said years, 1925-6-7-8-9 in excess of \$3000.00:

Therefore be it resolved that the action of the County Attorney heretofore taken in said cause #78 be and the same is hereby approved, and said County Attorney is hereby authorized and directed to consent to the setting aside of said decrees entered in said cause #78 insofar as same effect the title to said property herein described, and said County Attorney is hereby authorized and directed to carry out said settlement and compromise of said taxes on said property for the years 1925-6-7-8-9 on account of payment of said \$3000.00 heretofore made by the owner, and he is authorized to consent to the entry of such decree or decrees in said cause #78 as will fully release and discharge the above described property from any tax or taxes due on said property for the years 1925-6-7-8-9 in excess of the sum of \$3000.00 and payment of the taxes for 1930 and this order and direction is made approving the action heretofore taken and the compromise made, the same being in the Judgment of the Board for the best interests of the County.

OPINION OF COUNTY COUNSELLOR.

October 26th, 1931.

Board of County Commissioners,
Wyandotte County, Kansas.

Gentlemen :

With reference to the question submitted to me as to the Power of the Board of County Commissioners to compromise taxes with the owner of the property where the property has already been bid in by the county, advise you as follows:

Section 79-2411, Revised Statutes of Kansas, provides as follows:

"79-2411. Redemption or sale of lands purchased by the County. Whenever any lands or town lots that may have been or shall hereafter be sold for any taxes due thereon ~~that~~ have been or shall hereafter be bought in by any county for such taxes are hereafter shall be unredeemed for three years from date of sale, and no person shall offer to purchase the same for taxes, penalties and costs due thereon, the County Commissioners of the County where such lands or town lots are located may permit the owner, his agents or attorney, to redeem the same, or may authorize the County Treasurer to execute and the county clerk to assign the tax sale certificate for such lands or town lots for any sum less than the legal tax and interest thereon, as shall be in their judgment for the best interests of the County, which assignment shall have the same force and effect as if the full amount of taxes, interest and penalties had been paid therefor: Provided, however, that no deed shall be issued until six months after such assignment has been made."

I understand that the Board of City Commissioners are entitled to a major portion of the taxes to be derived from any compromise made on the property in question and that they have recommended such a compromise be made.

In the City of Atchison vs. L. Friend, 78 Kansas 30, the court holds, that the Board of County Commissioners are not bound to heed the advice or request of the City Officials, but may do so as the entire power to compromise and order a redemption for such amount as the Board of County Commissioners deem best is a matter which is vested solely with the Board of County Commissioners.

In Gibson vs Cockrum, 81 Kansas 772, The Court in the syllabus holds, "in compromising taxes the County Board may include in the compromise all delinquent taxes which are a lien on the premises at the time the compromise is ordered, or it may compromise the delinquent taxes for for certain years on condition that the purchaser pay the delinquent taxes in full for the other years in question." This case seems to be the general rule in Kansas and I can find no authority for deviating from the above.

I further understand that an attempted compromise has been made by the County Attorney and I would further advise that before the Board makes any order that a written opinion should be obtained from the County Attorney approving and confirming said order of compromise for the reason that said case is now in the hands of the County Attorney and in a tax sale, has been bid in by the county and the County Attorney by statute has exclusive charge of all tax foreclosure matters on real estate and is entitled to a fee on the sale or price.

When the above suggestions have been performed, it is my opinion that The Board of County Commissioners have the authority to compromise taxes where the property has been bought in by the county and is now or shall be unredeemed for a period of three years. Signed: Blake Will-

Samuel Clarke,
Chairman Board of County Commissioners,
Wyandotte County,
Kansas City, Kansas.

Honorable Chairman :

In behalf of the Wyandotte County unemployed Ex-service Men's Organization and the committee that was appointed by myself as President, we wish to extend our sincere thanks for the prompt and speedy manner in which your honorable body has handled the relief proposition when same was called to your attention.

These men are all honorably discharged soldiers, sailors or marines and as such have been fully trained in the manuals of fighting as well as earning their own livelihood after their discharge became effective, but under the present existing circumstances have been unable to procure work to earn a livelihood for themselves and families, and when such was not available had to resort to other means by which their dependents could be partly taken care of, and while the relief they have been receiving from the county has been small yet we realize it was the best that could be obtained at that time and along these lines we wish to express our thanks for what has been done for us in the past and ask a continuance of such favors until such time as they will be in a position to take care of themselves.

We shall, and will, always remember our friends that stood by us in our hour of need, and only await the opportunity when we will only be too glad to return said favors to yourself as Chairman of the Board and Dave Espenlaub and Frank Werner. We also wish to extend our thanks to your poor commissioner Ed Smith, who has been unbiased and unprejudiced in extending this relief to all of our un-employed Ex-service men and their families.

Again wishing to thank you from the depths of our heart be beg to remain,

Very truly yours,

By; J. F. Grenrod. President.

In regard to claims for refund of the Atchison Topeka & Santa Fe Railroad, and others, which were ordered by the State Tax Commission, advise you as follows :

It is my opinion that the railroad cannot compel by mandamus the carrying out of the Tax Commission's order, and I am of the further opinion that we have a legal defense to a good portion of the refunds allowed by the Tax Commission.

Motion carried all voting aye.

Board of County Commissioners.
 Wyandotte County, Kansas.

Gentleman:

In the matter of the taxation of furniture and fixtures of the Commercial National Bank for the year of 1932, advise as follows:

That in the year 1931 the assessor placed the value of the furniture and fixtures of the Bank at \$74,000. The bank appeared before the Board of Equalization and asked that it be removed. The Board of Equalization disallowed the request of the Bank.

An appeal was taken to the Tax Commission who affirmed the opinion of the County Board. The Bank then brought suit in the District Court #41,582-A entitled Commercial National Bank vs Wyandotte County Board of Commissioners, to enjoin the collection of tax upon said furniture and fixtures.

Suit came on for hearing on the 8th day of June, 1932 before division 4 of the District Court, and the court found in favor of the plaintiff and permanently enjoined the Board the Treasurer County Clerk, and Sheriff from attempting to levy upon said fixtures and furniture, and held that under the Law the furniture and fixtures of a National Bank are not subject to an assessment and restrained the authorities from levying on same.

I advised the County Assessor of this decision and advised him that he had no authority to assess the furniture and fixtures of a National Bank, however, in March of 1932, the County Assessor again assessed the furniture and fixtures of the Commercial National Bank at \$69,000 It is my opinion that under the decisions of Judge Miller above referred to, that these taxes cannot be collected and that if a suit were brought by the bank that the taxing authorities would again be restrained from collecting said taxes. I therefore recommend that this Board order the County Clerk to correct the error of placing the furniture and fixtures upon the tax rolls of Wyandotte County and remove from the tax roll in the assessment of the Commercial National Bank the item of \$69,000 furniture and fixtures as unlawful and void and that said bank be permitted to pay the balance of their taxes upon the shares of stock heretofore assessed by the County Assessor.

Respectfully submitted,

Blake A Williamson.
 County Counsellor.

In regard to the claim of J. A. Tobin for balance due on contract for grading and final estimate recently filed, advise as follows:

That it is my opinion under the facts of this case where the plans are ordered changed and the contractor compelled to do the extra work by Mr Shepherd an assistant in the office of the County Engineer, that the County would be liable for the actual work done under the plans and contract.
